

The Real Estate Salesforce Health Check

Score your CRM in 5 minutes — 10 questions, 1 point each

By Amr Magdy · 4x Certified Salesforce Consultant for Real Estate · amrmagdy.com

- | | | |
|--------------------------|---------------------------------|---|
| ☐ | 1. Speed to lead | Does every new lead reach an agent's phone in under 5 minutes — automatically, 24/7? |
| ☐ | 2. Lead routing | Are leads assigned by rules (round-robin, territory, source) instead of someone forwarding emails? |
| ☐ | 3. Pipeline truth | Can leadership see an accurate, real-time pipeline without asking anyone to update a spreadsheet? |
| ☐ | 4. Adoption | Do 80%+ of your agents log calls, notes, and stage changes in Salesforce — not in their phones? |
| ☐ | 5. Automation health | Do your automations run on native Salesforce Flows rather than a tangle of third-party Zaps? |
| ☐ | 6. Call logging | Are calls logged automatically from your phone system (RingCentral, etc.) — zero manual entry? |
| ☐ | 7. Campaign ROI | Do you know your cost-per-lead and cost-per-deal for every channel (PPC, direct mail, dialers, TV)? |
| ☐ | 8. Deal profitability | Can you see net profit per deal — acquisition, renovation, holding costs — inside the CRM? |
| ☐ | 9. Duplicates & data | Is duplicate detection automated, and do you trust the data enough to make decisions from it? |
| ☐ | 10. Stale leads | Does the system automatically escalate leads nobody has touched in 48 hours? |

Your score

- 9-10** Excellent — your CRM is a competitive weapon. Keep optimizing.
- 6-8** Solid foundation, but you're leaving hours and deals on the table every week.
- 0-5** Your Salesforce is costing you more than it returns. The good news: every point is fixable.
