# The Real Estate Salesforce Health Check

Score your CRM in 5 minutes: 10 questions, 1 point for every yes.

| | | | |
|---|---|---|---|
| 1 | **Speed to lead** | Does every new lead reach a rep within 5 minutes, automatically, at any hour? | ☐ yes |
| 2 | **Lead routing** | Are leads assigned by rules (round robin, market, source) instead of someone forwarding emails? | ☐ yes |
| 3 | **Pipeline truth** | Can leadership see an accurate pipeline without asking anyone to update a spreadsheet? | ☐ yes |
| 4 | **Adoption** | Does almost everyone log calls, notes and stage changes in Salesforce, not in their phones? | ☐ yes |
| 5 | **Automation health** | Do your automations run on native Salesforce Flow rather than a tangle of third-party zaps? | ☐ yes |
| 6 | **Call logging** | Are calls logged automatically from your phone system, with no manual entry? | ☐ yes |
| 7 | **Campaign ROI** | Do you know cost per lead and cost per closed deal for every channel? | ☐ yes |
| 8 | **Deal profitability** | Can you see net profit per deal, including all costs, inside the CRM? | ☐ yes |
| 9 | **Duplicates and data** | Is duplicate detection automated, and do you trust the data enough to decide from it? | ☐ yes |
| 10 | **Stale leads** | Does the system escalate leads nobody has touched in 48 hours? | ☐ yes |

**9–10** Your CRM is working for you. Keep improving.
**6–8** Solid foundation, but hours and deals are slipping every week.
**0–5** Your Salesforce costs more than it returns. Every point is fixable.
